

**DESCRIPTION:** TRACTION SAND is a natural source British Columbia sand that is washed and flame sterilized.

---

**USES:** TRACTION SAND is ideally designed for traction in snow and ice and is great for use as a trunk weight. It may also be used in gardens, for potting plants, and is useful in lawn aeration.

---

**TECHNICAL DATA:** TRACTION SAND is sourced locally from Sechelt, B.C. .

---

**PACKAGING:** TRACTION SAND is packaged in a 10 kg (22 lb.) plastic bag with a convenient handle at the top of the bag. TRACTION SAND is (approx.) 41 cm (16 in) by 30 cm (12 in) by 10 cm (4 in).

Liability for damages or defective goods shall be limited to the refund of the purchase price or product replacement.

---

**SAFETY PRECAUTIONS:** Lift with legs, not back.
